MACINA SX – KTM STARTET IN DIE NEUE ÄRA DER LIGHT E-BIKES

Die neue Macina-SX-Produktlinie ist eine Ergänzung zum bewährten KTM-E-Bike-Programm und revolutioniert das Fahrgefühl am Elektrorad in puncto Leichtigkeit und Agilität. Mit einem schlanken Rahmen-Design und der neuen BOSCH Performance Line SX Drive Unit stehen die Macina-SX-Modelle für unsere Verpflichtung zur Innovation und dem Streben nach neuen Grenzen. In diesem Sortiment trifft Sportlichkeit auf Eleganz. Macina SX verkörpert zudem eine perfekte Balance zwischen leichtem Gewicht und beeindruckender, natürlicher Leistung. Auch bei diesen Modellen kommt durchgehend die KTM eigene Innovation POWER TUBE TOP LOADER (PTTL) für eine benutzerfreundliche Akku-Handhabung zum Einsatz.

Die CompactPowerTube 400Wh Batterie kann bei allen Modellen nach oben aus dem Rahmen entnommen werden. Der einfache Prozess des Entfernens und Wiedereinsetzens lädt dazu ein, für die lange Tour einen Zweitakku mit dabei zu haben. Genau dafür liefern wir clevere Lösungen aus dem Zubehörbereich: Sowohl die „Sport Trunk Bag“-Satteltasche, als auch das „Battery Board“ für den Rucksack, wurden speziell für das Verstauen des Zweitakkus entwickelt. Eine andere Möglichkeit die Reichweite zu vergrößern, bietet der BOSCH PowerMore Range Extender mit 250 Wh. Dieser kann an den KTM-SX-Modellen direkt am Akkucover befestigt werden. Die Position der Ladebuchse wurde speziell darauf angepasst. Zusätzlich schützt ein integriertes Schloss den Akku vor Diebstahl.

Das Konzept der Light E-Bikes zieht sich durch die Produktkategorien MTB Fully, MTB Hardtail, MTB Kids, Gravel, Road, Trekking Onroad sowie Trekking Offroad. Zum Einsatz kommen schlanke Carbon- und Aluminiumrahmen. Besonderer Wert wurde bei diesen Modellen auf ein dynamisches und elegantes Design gesetzt. Egal ob im sportlichen Highend-Bereich oder beim urbanen Cruisen: Die SX-Modelle ebnen den Weg in eine neue Ära des elektrischen Radfahrens.

MACINA SX – KTM EMBARKS ON THE NEW ERA OF LIGHT E-BIKES

The new Macina SX product line is an addition to the proven KTM e-bike program and revolutionizes the riding experience on electric bicycles in terms of lightness and agility. With a sleek frame design and the new BOSCH Performance Line SX Drive Unit, the Macina SX models represent our commitment to innovation and the pursuit of new limits. This range combines sportiness with elegance. Macina SX also embodies a perfect balance between lightweight and impressive, natural power. These models also consistently feature KTM's own innovation, the POWER TUBE TOP LOADER (PTTL), for user-friendly battery handling.

The CompactPowerTube 400Wh battery can be removed from the frame at the top of the tube on all models. The simple process of removal and reinsertion invites you to have a second battery with you for long tours. For this purpose, we provide clever accessories solutions: both the "Sport Trunk Bag" saddlebag and the "Battery Board" for the backpack are specifically designed for storing a spare battery. Another option to increase the range is the BOSCH PowerMore Range Extender with 250 Wh. It can be mounted directly on the battery cover of the KTM SX models, and the position of the charging port has been specifically adapted for it. Additionally, an integrated lock provides theft protection.

The concept of light e-bikes extends across the product categories of MTB Fully, MTB Hardtail, MTB Kids, Gravel, Road, Trekking Onroad, and Trekking Offroad. Slim carbon and aluminum frames are used in these models. Special emphasis has been placed on a dynamic and elegant design. Whether in the high-end sports segment or urban cruising, the SX models pave the way into a new era of electric cycling.

BOSCH PERFORMANCE LINE SX

LEICHT, KOMPAKT, AGIL

Tritt in die Pedale und spüre die feinfühligte Unterstützung direkt. Sehr leise und supernatürlich, vereint die neue Performance Line SX das Fahrgefühl des konventionellen Fahrradfahrens mit den Vorteilen des eBikens. Circa 2 Kilogramm: Die Performance Line SX ist der leichteste BOSCH Antrieb mit der höchsten Leistungsdichte. Sie verringert das Gesamtgewicht deines eBikes, bringt mehr Agilität und ist ideal für Fans eines sportlichen Fahrstils.

Darüber hinaus verschwindet die kompakte Drive Unit unauffällig im Rahmen. Bei einer sportiven Fahrweise mit hoher Trittfrequenz unterstützt sie dich überproportional zu deiner Leistung – mit Spitzen von bis zu 600 Watt Motorleistung. Der CompactTube 400 Akku ist mit gerade einmal rund 2 Kilogramm ein echter Energie-Champion. Die POWER TUBE TOP LOADER (PTTL) Technologie von KTM ermöglicht auch bei Modellen mit der neuen Performance Line SX ein unkompliziertes Entfernen und Wiedereinsetzen der Batterie. Der einfache Prozess lädt dazu ein, für die lange Tour einen Zweitakku mit dabei zu haben.

LIGHT, COMPACT, AGILE

Start pedalling and immediately feel the sensitive support. Extremely quiet and super natural, the new Performance Line SX combines the riding sensation of conventional cycling with the advantages of eBiking. Around 2 kilograms: The Performance Line SX is our lightest drive with the highest power density. It reduces the total weight of your eBike, delivers greater agility and is ideal for fans of a sporty riding style.

In addition, the compact drive unit disappears elegantly into the crank area of the frame. When riding in a sporty style with a high cadence, it supports you disproportionately to your performance with peaks of up to 600 watts of motor power. The CompactTube 400 battery, with 400 watt hours at just around 2 kilos, it's a real energy champion. KTM's POWER TUBE TOP LOADER (PTTL) technology also enables uncomplicated removing and reinsertion on models with the new Performance Line SX. The simple process invites you to have a second battery with you for the long tour.

SYSTEM CONTROLLER & MINI REMOTE

Der System Controller ist die auf das Wesentliche reduzierte, ins Oberrohr integrierte Steuereinheit für eBikes mit dem smarten System. Die Mini Remote lässt sich beim System Controller einfach nachrüsten und am Lenker montieren.

Reduced to the essentials and integrated into the top tube, the System Controller is the clean control unit for eBikes with the smart system. Additionally, the Mini Remote can be easily retrofitted to the System Controller and mounted on the handlebar.

RANGE EXTENDER POWER MORE 250

Tragbare Energiereserve: PowerMore 250 ist der trinkflaschengroße Zusatzakku mit 250 WH für noch mehr Reichweite und länger anhaltenden Trail-Spaß. Dieser kann an den KTM SX Modellen direkt am Akkucover befestigt werden. Die Position der Ladebuchse wurde speziell darauf angepasst. Zusätzlich schützt ein integriertes Schloss vor Diebstahl.

Portable energy reserve: PowerMore 250 is an extra 250 WH battery the size of a bottle for even more range and longer-lasting trail fun. This Range Extender can be mounted directly on the battery cover of the KTM SX models. The position of the charging socket has been specially adapted to this. In addition, an integrated lock protects against theft.

SPORT TRUNK BAG PLUS E-BIKE 32L SNAP IT 2.0

Art Nr. 478590201 34 × 20 × 27 cm 32L

- Vormontierter Snapit-Adapter 2.0
- Trunk Bag mit ausziehbaren Neopren Fach für Zweitakku
- Der Akku bleibt geschützt und trocken
- Inklusive Regenhülle
- Seitliche Packtaschen aufklappbar
- 3 extra Innenfächer
- Pre-mounted Snapit adapter 2.0
- Trunk bag with extendable neoprene compartment for second battery
- The battery remains protected and dry
- Incl. raincover
- Main compartment can be enlarged
- 3 inner pockets

BATTERY BOARD

Art Nr. 8640930 47 × 22 × 1.5 cm 290 g

Battery Board für den geschützten und komfortablen Transport des E-Bike Zweitakkus im KTM Factory Team 20 L Rucksack (Artikel Nr. 47904). Weitere nützliche Gegenstände können auch am Battery Bord fixiert werden.

Battery Board for protected and comfortable transport of the second E-Bike battery in the KTM Factory Team 20 L backpack (item no. 47904). Other useful items can also be fixed on the battery board.

PURION 200

Die Purion 200 All-in-One-Lösung räumt den Lenker auf, sitzt direkt in Daumnähe und bietet eine gestochen scharfe Anzeige der Fahr-daten sowie eine einfache, ergonomische Steuerung aller eBike-Funktionen.

The Purion 200 all-in-one solution ensures an uncluttered handlebar, is in close proximity to the thumb and offers a razor-sharp display of ride data as well as simple, ergonomic control of all eBike functions.

IMPROVE YOUR TRAIL PERFORMANCE

Foto: unsplash/Lucas Parker

BOSCH EBIKE ABS KEEPS YOUR FLOW

Das BOSCH EBIKE ABS wird in unserer Range ab sofort auch am Mountainbike verbaut und wartet auf den Trail-Einsatz. Das Fahren am Limit kann dadurch noch weiter ausgereizt werden. Eine der Haupteigenschaften dieser Entwicklung: Durch die sehr feinfühlig und schnellen ABS-Regelung wird ein ungewolltes Abheben des Hinterrades weitestgehend verhindert und ein Überschlag durch ein überbremstes Vorderrad ausgeschlossen. Der dadurch verbesserte Bodenkontakt des Hinterrades erhöht die Fahrstabilität des Bikes entscheidend. Möglich wird der Einsatz des ABS am Mountainbike dank der kräftigen Magura CT Disc ABS Vierkolbenbremse.

Am E-Mountainbike gibt es insgesamt drei unterschiedliche ABS-Modi:

ALLROAD - hier greift das System frühzeitig und umfassend in den Bremsvorgang ein. Die Bremswege verlängern sich. Allroad ist ein Modus, der speziell für Fahrten im leichten Gelände entwickelt wurde, damit das Biken sorgloser und sicherer genossen werden kann.

TRAIL - Im Trail-Modus bleibt das E-Bike vollkommen Trail tauglich, das Vorderrad rutscht beim Bremsen nicht weg und die Bremswege verlängern sich nur minimal. Dieser Modus eignet sich für anspruchsvolle Trails und herausforderndes Terrain. Das Fahren wird kontrollierter und fokussierter. Auf diese Weise lässt sich die eigene Fahrtechnik verfeinern und damit die Performance auf den Trails steigern, während man gleichzeitig sicherer unterwegs ist.

OFF - das ABS ist ausgeschaltet. Dies wird am Display angezeigt, indem die Buchstaben ABS in Klammern gesetzt sind.

BOSCH EBIKE ABS KEEPS YOUR FLOW

The BOSCH EBIKE ABS is now available on our mountainbikes and is ready for trail use. Riding on the edge can be pushed even further with this feature. Due to the highly sensitive and rapid ABS control, unintentional lifting of the rear wheel is largely prevented, and the risk of a rollover caused by an excessively braked front wheel is eliminated. The improved contact of the rear wheel with the ground significantly enhances the bike's stability. The use of ABS on mountain bikes is made possible by the powerful Magura CT Disc ABS four-piston brake.

On the E-Bike, there are a total of three different ABS modes:

ALLROAD - In this mode, the system intervenes early and comprehensively in the braking process. The braking distances are extended. Allroad is a mode specifically designed for rides on light terrain, allowing for a more carefree and safer biking experience.

TRAIL - In Trail mode, the e-bike remains fully capable on the trail, with minimal front wheel slippage during braking and only a slight increase in braking distances. This mode is suitable for challenging trails and demanding terrain. Riding becomes more controlled and focused. This way, you can refine your riding skills and improve performance on the trails while staying safer on the bike.

OFF - The ABS is turned off. This is indicated on the display by placing the letters ABS in parentheses.

ANTIBLOCKIER- FUNKTION

Sensoren messen die Radgeschwindigkeit und regeln den Bremsdruck - für effizientes Bremsen.

ANTI-LOCK BRAKING FUNCTION

Sensors measure wheel speed and regulate brake pressure - for efficient braking.

VERSCHIEDENE ABS-MODI

Die ABS-Modi sind auf den eBike-Typ abgestimmt: ABS Cargo, ABS Touring, ABS Allroad, ABS Trail.

DIFFERENT ABS MODES

The ABS modes are matched to the eBike type: ABS Cargo, ABS Touring, ABS Allroad, ABS Trail.

EFFEKTIVER UNFALLVERMEIDER

Wenn alle Pedelecs mit ABS ausgestattet wären, könnten jährlich bis zu 29% aller Unfälle mit Pedelecs verhindert werden.

EFFECTIVE ACCIDENT AVOIDANCE

If all eBikes were equipped with ABS, up to 29 percent of pedelec accidents could be prevented each year.

BREMSVERHALTEN VERBESSERN

Über dein Display - das Kiox 300 - werden deine Bremsstatistiken sichtbar.

IMPROVING BRAKING BEHAVIOUR

Your braking statistics can be viewed on your display - the Kiox 300.
